***Response to Amendment***

Applicant's amendment received on September 7<sup>th</sup> 2004 has been fully considered and entered, but the arguments are not persuasive.

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-5, 7-10, 13-20, 22-28, and 30-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over McGraw, Sr. et al. (US Patent no. 5,577,042) in view of Grant et al. (US Patent no. 6,553,566) for the same reasons as previously set forth in the last office action mailed on June 22, 2004, paper no. 5.

Regarding claims 1-5, 7-10, 13-20, 22-28, 30-31, the applicant argues that Grant does not teach or suggest embedding first compressed video data having a first compressed format in a transmission bitstream having a second compressed format. The examiner respectfully disagrees because not only Grant discloses compressed video packet data embedded in video programming signals but also discloses in col. 4, lines 16-43, lines

Art Unit: 2613

50-56, that those signals are subject to multiple compression formats (See Grant col. 5, lines 4-19).

3. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over McGraw, Sr. et al. (US Patent no. 5,577,042) and Grant et al. (US Patent no. 6553566) as applied to claim 5, and further in view of Lankford (US Patent no. 5,467,139) for the same reasons as previously set forth in the last office action mailed on June 22, 2004, paper no. 5.

As per claim 6, the applicant did not present any arguments with respect to the cited sections of the prior art. It is therefore, the examiner's belief that the claims were properly rejected.

5. Claims 11-12, 21, 29 are rejected under 35 U.S.C. 103(a) as being unpatentable over McGraw Sr. et al. (US Patent no. 5,577,042) and Grant et al. (US Patent no. 6553566) as applied to claims 1, 19 and 28 above, and further in view of Wee et al. (US Patent no. 6,507,618).

As per claims 11-12, 21, 29, the applicant did not present any argument with respect to the cited sections of the prior art. It is therefore, the examiner's belief that the claims were properly rejected.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

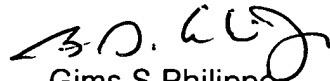

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
